

Off-Road Equipment

Graco automatic lubrication equipment

The best time to lubricate is when equipment is working—keeping contaminants out and helping absorb component-damaging shock.

Plus, you won't have missed lube points or manual lubrication down-time.

PROVEN QUALITY. LEADING TECHNOLOGY.

Construction & Mining Equipment

Graco automatic lubrication packages give you a competitive advantage – spend less time on maintenance, repair and supplies.

Dump manual lubrication

Equip off-road vehicles for highest dependability

Graco offers a complete line of automatic lubrication systems that increases chassis component life and reduces downtime. A central pump and grease reservoir is located at a convenient and easily accessible location. The pump feeds grease to a metering device that accurately doses the grease in a predetermined amount to each lube point.

Graco's automatic lubrication system constantly replenishes grease as it's used. Critical wear surfaces are protected and grease seals are maintained, preventing dirt and other contaminants from entering your bearings.

Forestry Harvesters and Skidders

Small- to Mid-Size Vehicles

Heavy Construction

Reduce lubricant usage and operating cost

Significantly cut maintenance and repair costs and maximize machine hours by supplying grease in small amounts at frequent intervals, ensuring proper lubrication when your bearings need it most– while they’re in use.

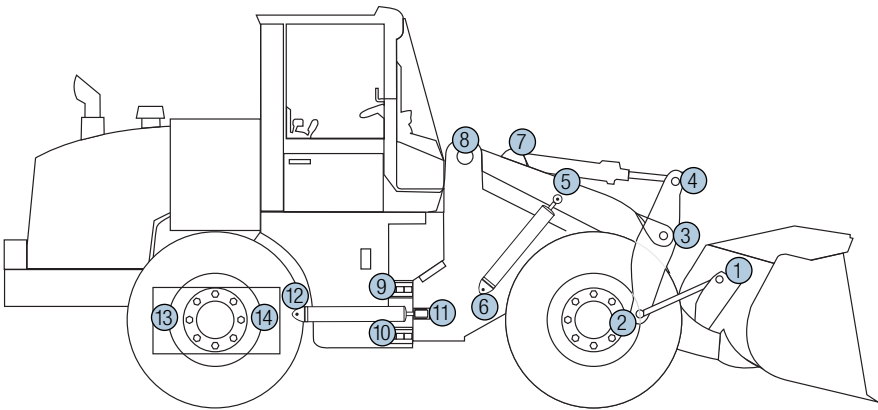

You get

- Better performing equipment with less downtime
- More hourly production by keeping equipment on the job and out of the shop
- Less waste and higher profits due to lower lubricant consumption
- Positive return on investment and a healthier bottom line

Let Graco lube it

Automatically lubricate all these points while you work:

1	Upper Bucket Pins	8	Boom Pivot
2	Bucket Link	9	Upper Articulating Pivot
3	Bell Crank Pivot	10	Lower Articulating Pivot
4	Bucket Cylinder Rod End	11	Steering Cylinder Rod End
5	Left Cylinder Rod End	12	Steering Cylinder Cap End
6	Left Cap End	13	Rear Axle Cradle
7	Bucket Cylinder Cap End	14	Rear Axle Nose Bearing

Lubrication you can count on every day

We know how construction and mining equipment can take a beating. Graco's automatic lubrication equipment is just as tough–built to perform in the most rugged environments. Graco automatic lubrication equipment...easy-to-use, dependable and designed specifically for the challenges you face every day.

Rope Shovels and Drag Lines

Earth Movers

Haulers

High quality lubrication solutions

Graco offers a complete line of money-saving lubrication systems for all types of equipment.

Agricultural Equipment
Bottling Operations
Beverage Production
Cement Production
Construction Equipment
Food Processing
Forestry & Lumber
Gas Compression
Injection Molding
Machine Tools
Material Handling
Military Equipment
Mining Equipment
Off-Road Equipment
On-Road Equipment
Packaging
Power Generation
Primary Metals Manufacturing
Printing Press
Pulp & Paper
Stamping Presses
